Other Ingredients : Linse		8001-26-1	<40%					
	SECTION 3 – HAZARD IDENTIFICATION							
		Emergency			_		_	
The product is not e							n be a	
"Combustion Hazard" if product or surfaces marked by it are improperly disposed.								
	EYE CONTACT May cause mild, transient irritation.							
SKIN CONTACTNo health effects known. Shouldn't be in contact with mucosa.INHALATIONNot likely to occur as the product is not volatile at room temperature.								
						lin langa a	titr.	
INGESTION May cau	ise gastrointestinal irrit					ı ın ıarge q	uantity.	
Potential Health Effects (NFPA Classification) Fire hazard: 1 Health Hazard: 0 Reactivity: 0 Personal Protection: See Section 8								
	ealth Hazard: 0	Reactivity					ection 8	
0 = Minimal 1 = Slight hazard 2= Moderate Hazard 3 = Serious Hazard 4 = Severe Hazard								
Potential Health Effects (HMIS Rating)								
Health: 0	Health: 0 Flammability: 1 Reactivity: 0							
0 = Minimal 1 = Slight hazard 2= Moderate Hazard 3 = Serious Hazard 4 = Severe Hazard								
SECTION 4 – FIRST AID MEASURES								
EYE CONTACT Rinse with cold water; seek medical attention if irritations persist.								
SKIN CONTACT Wash skin with water & soap or industrial hand cleaner.								
INHALATION Not likely to occur with solid product.								
INGESTION Not likely to occur, large amounts may cause intestinal blockage and necessitate medical attention if discomfort occurs.								
ADDITIONAL INFO	None							
SECTION 5 – FIRE FIGHTING MEASURES								
Extinguishing Media	Treat as an oil fire. U							
Special Fire fighting	Special Fire fighting Keep people away from fire and sm		noke, Wear full fire fighting turn-out gear and					
Procedure respiratory protection (SCBA).								

Explosion Haza				in a fire. Rags and waste paper tions. Dispose of rags or paper in		
2. prosion riuz		оши вр	ontaineously in certain contri	nons. Dispose of rugs of puper in	r proper surety cans.	
		SEC	CTION 6 – ACCIDENTA	AL RELEASE MEASURE	S	
Small Spills	Not like	Not likely to occur in solid format. Sweep and scrap the spill				
Large Spills	Not like	Not likely to occur in solid format. May melt if exposed to excessive heat. In that case, let the material				
Large Spins	solidify and scrap the spill.					
			SECTION 7 – HANDI	LING AND STORAGE		
Handling proce				h thoroughly exposed body part		
Storage		Normal precaution should be followed in handling and storage. Store in a dry & cool place. Keep out of				
precautions	strong sunlight. Do not store at temperature : $> 50^{\circ}$ C / 120°F or near spark or open flame.					
	SECTI	ON 8 -		OLS / PERSONAL PROTE	ECTION	
				PROTECTION		
Respiratory protection No special respiratory prote		o special respiratory protecti	on is normally required.			
Protective glov	es		one is normally required.			
Eye protection			one is normally required.			
Clothing			tandard industrial.

	SECTION 15 – REGULATORY INFORMATION
Hazard Details of SECTION 2	 Appears on the Pennsylvania Hazardous Substance List. Appears on the Canadian WHMIS Ingredient Disclosure List.
SARA Status	No reporting requirement.
SARA Hazard Cat.	None
TSCA Status	All ingredients of this product are listed on the U.S. EPA TSCA (Toxic Substances Control Act) Chemical Substance Inventory.
DSL Status	All ingredients of this product are listed on the Canadian EPA (CEPA) Domestic Substances List (DSL).
EINECS Status	All ingredients of this product are listed on the European Inventory of Existing Chemical Substances (EINECS).
AICS Status	All ingredients of this product are listed on the Australian Inventory of Chemical Substances (AICS).
OSHA Status	Not a controlled or hazardous material as defined by U.S. OSHA HCS (29 CFR 1910.1200).
WHMIS Status	Not considered to be hazardous material as defined by Canadian WHMIS Controlled Product Regulation (CPR).
OSHA HCS Compliance	SDS of the product is classified in accordance with all the required information for his hazard criteria under the Health Communication Standards of the U.S. OSHA.
WHMIS CPR Compliance	SDS of the product is classified in accordance with all the required information for his hazard criteria under the Controlled Products Regulations of the Canadian WHMIS.
ANSI Z400.1-1993 Compliance	SDS of the product is made following the Z400.1-1993 standards of the ANSI.
